Professional Objective

Full-Stack Developer with a focus on back-end, specializing in Golang and Node.js. I have experience in developing robust and scalable systems, ranging from simple CRUD applications to complex microservices architectures and serverless solutions in AWS. I am seeking opportunities to apply my skills and contribute to the growth of innovative companies.

Professional Experience

Full Stack Developer – Inside Code

📍 Belo Horizonte, Minas Gerais, Brazil – Remote | **Sep 2024 – Present (6 months)**

- Development of scalable web applications using Golang and Node.js.
- API integration and database management with MySQL and PostgreSQL for process optimization.
- Participation in architecture decisions, focusing on application performance and security.
- Implementation of serverless solutions with AWS Lambda, API Gateway, and DynamoDB.

Full Stack Developer – Rizzo Dev

📍 Luziânia, Goiás, Brazil | **Sep 2023 – Sep 2024 (1 year, 1 month)**

- Creation and maintenance of web pages using React and Next.js, enhancing user experience.
- Development of microservices to optimize internal processes, using Golang and Node.js.
- Integration of scalable storage solutions with MongoDB and AWS S3.
- Automation of processes to reduce response time in critical demands.

Education

MBA in Full Cycle Architecture – Full Cycle
📅 **Jan 2024 – Jun 2025**

Associate Degree in Systems Analysis and Development
📍 **Universidade Católica de Brasília | Mar 2022 – Nov 2023**

Technical Skills

- **Back-End:** Golang, Node.js

- **Front-End:** React, Next.js

- **Databases:** MySQL, PostgreSQL, MongoDB, DynamoDB

- **Cloud/AWS:** Lambda, API Gateway, DynamoDB, S3

- **Methodologies:** Agile (Scrum/Kanban), CI/CD, Microservices, Serverless

Certifications

- **Full Cycle Developer – Full Cycle Academy (2025)**

Languages

- **Portuguese:** Native

- **English:** Intermediate
